Summary

Early-career Junior MLOps Engineer with 1 year in Data/AI/ML. Strongest in Kafka; currently deepening my Databricks experience through production work rather than tutorials.

Relevant Experience

Junior MLOps Engineer

Adobe | 2024-11 — Present | Dickersonton (Remote)

- Productionised demand forecasting models that reduced stock-outs by 12% across 4 regions.
- Ran A/B tests across 15 model variants; the winning variant added an estimated \$150k in annual revenue.
- Lifted recommendation click-through by 22% through feature engineering and retraining cadence in LangChain.
- Migrated ad-hoc notebooks into versioned Scikit-learn pipelines with reproducible runs and tracked experiments.

Academic Background

High School

Meganton High School | 2020 — 2024

Key Skills

Kafka | Databricks | Scikit-learn | LangChain | Airflow

Side Projects

Conference talk

Spoke on Kafka in production at a regional meetup, ~90 attendees.

LangChain utility library

Open-source helper library for LangChain, ~600 GitHub stars. Wrote the docs and handled issue triage.

Recipe search engine

Full-text search over a scraped recipe corpus using Airflow; learned more about ranking than about cooking.

Languages

English – Native
