Career Objective

Software Development graduate with 2 years of hands-on experience, most recently at Meridian Software. Comfortable with GraphQL and PostgreSQL, and keen to work somewhere with strong code review culture.

Education & Qualifications

Master, Mathematics

Oakmere University | 2021 - 2023

Thesis: "Graph partitioning under capacity constraints"

Relevant coursework: Optimisation, Real Analysis, Linear Algebra, Probability Theory

Bachelor, Mathematics

Politecnico di Milano | 2017 - 2021

Experience

Meridian Software — Junior Platform Engineer

08/2024 - Present | Maryfurt (Hybrid)

- » Mentored 8 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- » Replaced a third-party dependency with an in-house Java module, saving \$30k per year in licence fees.
- » Hardened authentication flows in REST APIs after a security review, closing 50 findings before audit.
- » Introduced contract testing with Playwright, lifting coverage from 30% to 94% and cutting integration bugs.

Key Skills

GraphQL — Intermediate

PostgreSQL — Working knowledge

Java — Working knowledge

C# — Working knowledge

REST APIs — Working knowledge

Selenium — Working knowledge

Playwright — Working knowledge

AWS — Working knowledge

Projects

Charity chatbot

Built a Java assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Conference talk

Spoke on Playwright in production at a regional meetup, ~90 attendees.

Home energy dashboard

Collects meter readings and renders them with Java. Mostly an excuse to learn time-series storage properly.

Certifications

AWS Certified Solutions Architect - Associate — Amazon Web Services, 2016

Azure Solutions Architect Expert (AZ-305) — Microsoft, 2025

Publications

"Graph partitioning under capacity constraints" - co-authored conference paper, 2023.

Volunteer Experience

Volunteer instructor at a weekend coding club for 15 secondary school students.
