Chad Welch

Software Engineer

Work Experience

Software Engineer

Palantir | 2020–2026

- » Partnered with product to scope and deliver 8 major releases, each behind staged rollouts.
- » Refactored the billing module behind a feature flag, eliminating 60% of recurring production incidents.
- » Mentored 40 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- » Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 12%.
