KEY SKILLS

C# (4 years), Git (4 years), Spring Boot (4 years), Redis (7 years), Vue.js (4 years), GraphQL (4 years), CI/CD (7 years), Databricks (2 years), Java (4 years), React (7 years)

LANGUAGES

English – C2

PERSONAL INTERESTS

Bouldering, Trail running

KEVIN MOORE

Mobile Engineer

CAREER OBJECTIVE

Mobile Engineer with 8 years in Software Development, currently at Summit Digital. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in C#, Git and Spring Boot.

EDUCATION AND TRAINING

Bachelor, Economics

Westfield State University | 2015 – 2018

EXPERIENCE

Mobile Engineer, Summit Digital

Aug 2018 – Now

- Hardened authentication flows in C# after a security review, closing 4 findings before audit.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 55%.
- Designed and shipped Java services handling 30k requests per minute, cutting p99 latency from 320ms to 80ms.
- Cut CI build times by 30% by parallelising the CI/CD pipeline and caching dependency layers.
- Owned the customer-facing API end to end on Spring Boot, from schema design through on-call support.

SIDE PROJECTS

Match-day predictor

Small model in Spring Boot predicting league results. Beats the naive baseline; still loses to the bookmakers.

AWARDS

Graduated with Distinction, 2019

Internal Hackathon Winner, 2021
