About Me

Early-career MLOps Engineer with 1 year in Data/AI/ML. Strongest in Scikit-learn; currently deepening my TensorFlow experience through production work rather than tutorials.

Employment History

Cobalt Systems — MLOps Engineer

October 2024 to Current | North Peter (Remote)

- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Migrated ad-hoc notebooks into versioned Scikit-learn pipelines with reproducible runs and tracked experiments.
- Lifted recommendation click-through by 35% through feature engineering and retraining cadence in Scikit-learn.
- Mentored 40 analysts moving into modelling work, with weekly paper reading and code review.

Qualifications

Bachelor, Physics

California Institute of Technology | 2024

Skills

Scikit-learn | TensorFlow | NumPy | Kafka | PyTorch | Django | MongoDB | Bash

Side Projects

NumPy utility library

Open-source helper library for NumPy, ~900 GitHub stars. Wrote the docs and handled issue triage.

Technical blog

Writing up Scikit-learn experiments and failures, roughly 5k readers a month.

Match-day predictor

Small model in MongoDB predicting league results. Beats the naive baseline; still loses to the bookmakers.

Community

Mentor, the university alumni network - coaching career changers through their first technical role.
