

RACHEL WIGGINS

PERSONAL STATEMENT

Senior Machine Learning Engineer with 21 years in Data/AI/ML, currently at Redwood Data. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Docker, MLflow and Airflow.

SELECTED HIGHLIGHTS

- Productionised demand forecasting models that reduced stock-outs by 55% across 2 regions.
- Lifted recommendation click-through by 20% through feature engineering and retraining cadence in Hugging Face.
- Built the feature store that 5 downstream models now read from, ending duplicated feature logic.
