Data Engineer with 8 years in Data Analysis, currently at Shopify. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Looker, Pandas and Snowflake.

RELEVANT EXPERIENCE

Data Engineer, Shopify

Sep '22 – Present

- » Designed the experiment readouts template now used company-wide.
- » Migrated reporting from spreadsheets to PostgreSQL, giving one trusted source of numbers.
- » Presented findings to the executive team monthly, translating analysis into concrete decisions.
- » Ran cohort analysis that reframed how the business measures activation.

Analytics Engineer, Meridian Software

Nov '17 – May '22

- » Built Looker dashboards used daily by 10 stakeholders across three departments.
- » Partnered with engineering to fix event tracking, recovering 15% of previously lost sessions.
- » Built data quality tests in Snowflake that catch upstream breakages before stakeholders see them.
