PROFESSIONAL SUMMARY

Product/Design graduate with 1 year of hands-on experience, most recently at Snowflake. Comfortable with Tableau and Git, and keen to work somewhere with strong code review culture.

EDUCATION

Bachelor, Mathematics

Technical University of Munich | 2024

Relevant coursework: Real Analysis, Optimisation, Numerical Methods, Probability Theory

PROFESSIONAL EXPERIENCE

Technical Product Manager

Snowflake | 2024-05 — 2026-04

- Facilitated usability testing that surfaced 4 critical friction points before launch.
- Built the experimentation framework the team uses to size bets before committing.
- Ran discovery interviews with 50 customers, reshaping the following year's roadmap.
- Shipped a design system in the design system adopted across 10 product surfaces.

TECHNOLOGIES

Tableau (2 years), Git (1 year), Looker (1 year), Confluence (1 year), SQL (1 year), C# (1 year), Kubernetes (1 year)

PERSONAL PROJECTS

Recipe search engine

Full-text search over a scraped recipe corpus using Tableau; learned more about ranking than about cooking.

Personal finance tracker

Self-hosted spend tracker built with C#. Deliberately kept the data local rather than using a hosted service.

Confluence utility library

Open-source helper library for Confluence, ~100 GitHub stars. Wrote the docs and handled issue triage.

TRAINING & CERTIFICATIONS

Google Analytics Certification — Google, 2022

SELECTED PUBLICATIONS

"Convergence bounds for stochastic optimisation methods" - co-authored conference paper, 2024.

"Convergence bounds for stochastic optimisation methods" - technical report, 2026. Cited internally as the basis for the current design.

VOLUNTEER EXPERIENCE

Committee member, local Product meetup - organise speakers and venue.
