About Me

Junior Analytics Engineer with 9 years in Data Analysis, currently at Beacon Interactive. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Excel, BigQuery and Redshift.

Professional Experience

Beacon Interactive — Junior Analytics Engineer

March 2017 to Now

- » Automated monthly reporting with Snowflake, saving 20 analyst-hours per cycle.
- » Partnered with engineering to fix event tracking, recovering 45% of previously lost sessions.
- » Modelled pricing scenarios in Excel, supporting a 60% margin improvement.
- » Built data quality tests in MongoDB that catch upstream breakages before stakeholders see them.
- » Analysed churn drivers and informed retention work that reduced churn by 15%.
