Pragmatic Backend Developer (3 years in Software Development). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Spring Boot, Python and a lot of conversations with the people who use what we build.

EXPERIENCE

Redwood Data — Backend Developer

2025-05 — Present | Whiteview

- Refactored the billing module behind a feature flag, eliminating 45% of recurring production incidents.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 35%.
- Partnered with product to scope and deliver 5 major releases, each behind staged rollouts.

Full-Stack Developer, Stonebridge IT

2023-01 — 2025-03 | Sherrybury

- Rewrote the search path in React, dropping median response from 320ms to 80ms for 50M monthly users.
- Led the migration of a legacy monolith to React, taking deployments from fortnightly to 50 per day.
