Professional Profile

Early-career Junior Backend Developer with 1 year in Software Development. Strongest in Git; currently deepening my Vue.js experience through production work rather than tutorials.

Education & Qualifications

High School

New Danielleshire High School | 2020–2023

Professional Experience

Nova Tech Group — Junior Backend Developer

2025–Present | South Yolanda

- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 35%.
- Partnered with product to scope and deliver 2 major releases, each behind staged rollouts.

Technologies

Git | Vue.js | CI/CD | Next.js | JavaScript | AWS | Scikit-learn

Personal Projects

Match-day predictor

Small model in AWS predicting league results. Beats the naive baseline; still loses to the bookmakers.

Next.js utility library

Open-source helper library for Next.js, ~300 GitHub stars. Wrote the docs and handled issue triage.

Personal finance tracker

Self-hosted spend tracker built with Scikit-learn. Deliberately kept the data local rather than using a hosted service.
