Personal Statement

Early-career Cloud Engineer with 2 years in DevOps/Infrastructure. Strongest in Jenkins; currently deepening my Ansible experience through production work rather than tutorials.

Education and Training

Master, Business Administration

Massachusetts Institute of Technology | 2021 – 2023

Thesis: "Pricing strategy in two-sided marketplaces"

Relevant coursework: Marketing Analytics, Operations Management, Strategic Management, Corporate Finance

Bachelor, Business Administration

Fairview Institute of Technology | 2018 – 2021

Experience

Beacon Interactive — Cloud Engineer

Jun 2023 – Feb 2026 | New Hollyborough (Remote (UK))

- Designed the multi-region failover strategy and led the game-day exercises that proved it.
- Introduced infrastructure-as-code with Ansible, eliminating manual provisioning entirely.
- Built CI/CD pipelines with Grafana, bringing mean time to deploy under 20 minutes.
- Migrated 15 services to Datadog, cutting monthly infrastructure spend by 30%.

Technical Proficiencies

Jenkins

Ansible

Datadog

Bash

Python

C#

Spark

Grafana

Side Projects

Charity chatbot

Built a C# assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.

Match-day predictor

Small model in Ansible predicting league results. Beats the naive baseline; still loses to the bookmakers.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Datadog.
