PERSONAL STATEMENT

17 years in Data Analysis, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: Looker and Python.

PROFESSIONAL EXPERIENCE

Analytics Engineer, Ironwood Labs

2013–Present

- Modelled pricing scenarios in SQL, supporting a 15% margin improvement.
- Rebuilt the finance forecast with the FP&A; team, improving accuracy by 18%.
- Built Tableau dashboards used daily by 20 stakeholders across three departments.

Junior Data Analyst, Datadog

2009–2013

- Defined and documented 20 core business metrics in the semantic layer, ending duplicate definitions.
- Designed the experiment readouts template now used company-wide.

ACADEMIC BACKGROUND

Bachelor, Communications

Lakeshore University | 2004–2007
