Summary

Senior Software Development professional, 20 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: gRPC, REST APIs, TypeScript.

Education & Qualifications

High School

New Robert High School | 2001 to 2005

Experience

Senior Software Engineer, Harbor Point Tech

October 2014 to Now | West Hannahton

- » Introduced contract testing with pytest, lifting coverage from 4% to 88% and cutting integration bugs.
- » Set the service-level objectives for 30 services and built the dashboards the team still runs on.
- » Led the migration of a legacy monolith to Spring Boot, taking deployments from fortnightly to 6 per day.
- » Hardened authentication flows in C# after a security review, closing 50 findings before audit.

Ironwood Labs — Software Engineer

March 2009 to July 2014 | South Emily (On-site)

- » Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 12%.
- » Owned the customer-facing API end to end on REST APIs, from schema design through on-call support.
- » Built a reusable Spring Boot component library adopted by 8 product teams, removing months of duplicated work.

Lumen Works — Junior Full-Stack Developer

November 2006 to October 2008 | Karastad

- » Partnered with product to scope and deliver 3 major releases, each behind staged rollouts.
- » Refactored the billing module behind a feature flag, eliminating 12% of recurring production incidents.

Meridian Software — Junior Backend Developer

December 2005 to November 2006 | Wesleymouth (Remote)

- » Cut CI build times by 12% by parallelising the in-house toolchain pipeline and caching dependency layers.
- » Designed and shipped Java services handling 3k requests per minute, cutting p99 latency from 900ms to 140ms.

Core Competencies

Languages: TypeScript, Python, JavaScript, C#, Java

Frameworks: React, Node.js, Spring Boot

Data: PostgreSQL, Airflow, MongoDB

Analytics & Design: Power BI, Looker

Testing & Tooling: gRPC, REST APIs, pytest

Side Projects

Personal finance tracker

Self-hosted spend tracker built with Spring Boot. Deliberately kept the data local rather than using a hosted service.

Conference talk

Spoke on JavaScript in production at a regional meetup, ~80 attendees.

Training & Certifications

Professional Data Engineer — Google Cloud, 2026

Publications

"Cache coherence under bursty workloads" - co-authored conference paper, 2006.

Awards

Employee of the Quarter, 2024
