PROFILE

Early-career QA Analyst with 1 year in QA/Testing. Strongest in Java; currently deepening my Selenium experience through production work rather than tutorials.

ACADEMIC HISTORY

Bachelor, Communications

Technical University of Munich | 2020 – 2023

Relevant coursework: Digital Strategy, Public Relations, Research Methods, Media Theory

KEY SKILLS

Java (2 yr exp), Selenium (1 yr exp), Postman (2 yr exp), CI/CD (2 yr exp), Prometheus (1 yr exp), Jira (2 yr exp), GCP (1 yr exp)

WORK EXPERIENCE

Vantage Analytics — QA Analyst

Apr '24 – Mar '26 | Port Timothymouth (Remote (UK))

- » Built a performance harness in Selenium simulating 15k concurrent users.
- » Drove accessibility coverage from 8% to 92% of core journeys.
- » Partnered with developers to shift testing left, embedding QA in refinement sessions.
- » Mentored 20 manual testers into automation roles.

PROJECTS

Match-day predictor

Small model in Java predicting league results. Beats the naive baseline; still loses to the bookmakers.

Personal finance tracker

Self-hosted spend tracker built with CI/CD. Deliberately kept the data local rather than using a hosted service.

Charity chatbot

Built a Prometheus assistant for a local charity to answer volunteer questions; retired it once they moved to a supported platform.
