Profile

Product Manager with 2 years of commercial experience across Product/Design. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: Tableau, Git.

Employment History

Product Manager, Cloudflare

Jul '24 – Present

- » Prioritised a backlog for 20 engineers, delivering 3 releases per quarter.
- » Prototyped 8 concepts in React and killed two early on evidence rather than opinion.
- » Partnered with data to define activation and retention definitions the whole company now uses.
- » Facilitated usability testing that surfaced 50 critical friction points before launch.

Qualifications

Master, Physics

Copperfield State University | 2021 – 2023

Thesis: “Statistical modelling of detector noise”

Relevant coursework: Computational Physics, Quantum Mechanics, Electromagnetism, Thermodynamics

Bachelor, Computer Science

Riverside State University | 2016 – 2020

Technical Skills

Tableau (2 years), Git (1 year), React (1 year), TypeScript (2 years), Jira (2 years), Django (1 year), Vue.js (2 years), C# (1 year)

Selected Projects

Personal finance tracker

Self-hosted spend tracker built with Vue.js. Deliberately kept the data local rather than using a hosted service.

Recipe search engine

Full-text search over a scraped recipe corpus using Django; learned more about ranking than about cooking.

Match-day predictor

Small model in Vue.js predicting league results. Beats the naive baseline; still loses to the bookmakers.

Language Skills

English – C2
