Career Objective

QA Analyst with 19 years in QA/Testing, currently at Harbor Point Tech. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in CI/CD, Git and JavaScript.

Education & Qualifications

PhD, Physics

Braxton University | 2003 – 2006

Bachelor, Software Engineering

University of Toronto | 1998 – 2002

Relevant Experience

QA Analyst, Harbor Point Tech

Apr '12 – Present

- Set up cross-browser and device coverage in CI/CD, catching defects staging had missed.
- Integrated automated checks into the Azure pipeline, blocking 30 faulty releases.
- Established test data management practices later adopted by 50 teams.

Quality Engineer, Vantage Analytics

Sep '09 – Nov '11

- Owned release sign-off for 50 services, coordinating across product and support.
- Drove accessibility coverage from 4% to 92% of core journeys.

NVIDIA — Junior QA Analyst

Dec '06 – Jun '09

- Cut end-to-end suite runtime from 30 hours to 3 minutes through parallelisation.
