

Jennifer Wagner

Professional Profile

Junior Software Engineer with 4 years in Software Development, focused on C# and Next.js. Comfortable owning a feature from discovery through to production support.

Career Highlights

- Replaced a third-party dependency with an in-house C# module, saving \$20k per year in licence fees.
- Owned the customer-facing API end to end on C#, from schema design through on-call support.
- Refactored the billing module behind a feature flag, eliminating 35% of recurring production incidents.

Work Experience

Junior Software Engineer, Cobalt Systems

Jun '22 – Aug '26

- Hardened authentication flows in Go after a security review, closing 2 findings before audit.
- Led the migration of a legacy monolith to C#, taking deployments from fortnightly to 15 per day.
- Mentored 8 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Designed and shipped React services handling 50k requests per minute, cutting p99 latency from 1200ms to 140ms.

Academic History

PhD, Information Systems

Politecnico di Milano | 2016 – 2021

Thesis: “Adoption barriers for self-service analytics”

Bachelor, Information Systems

Fairview Institute of Technology | 2016

Technical Proficiencies

C# (4 yr exp), Next.js (1 yr exp), REST APIs (2 yr exp), React (1 yr exp), Databricks (2 yr exp), Go (1 yr exp)
