

Morgan Alexander

SDET

PROFILE

SDET with 2 years of commercial experience across QA/Testing. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: Selenium, Jira.

PROFESSIONAL EXPERIENCE

SDET

Adobe | July 2024 to Current

- » Integrated automated checks into the Prometheus pipeline, blocking 50 faulty releases.
- » Owned release sign-off for 30 services, coordinating across product and support.
- » Introduced flaky-test quarantine, taking suite reliability from 30% to 92%.
- » Reduced escaped defects by 70% through risk-based test prioritisation.

ACADEMIC BACKGROUND

Master, Data Science

Granite Bay University | 2022 to 2024

Thesis: "Drift detection for production forecasting models"

Bachelor, Data Science

Georgia Institute of Technology | 2019 to 2022

SIDE PROJECTS

Personal finance tracker

Self-hosted spend tracker built with Playwright. Deliberately kept the data local rather than using a hosted service.

Jira utility library

Open-source helper library for Jira, ~800 GitHub stars. Wrote the docs and handled issue triage.

Home energy dashboard

Collects meter readings and renders them with Playwright. Mostly an excuse to learn time-series storage properly.

RECOGNITION

Graduated with Distinction, 2026

Dean's List, 2025
