Personal Statement

Pragmatic Junior Test Automation Engineer (3 years in QA/Testing). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Git, JavaScript and a lot of conversations with the people who use what we build.

Academic Background

High School

North Kylefort High School | 2022

Career History

Beacon Interactive — Junior Test Automation Engineer

2022-09 — 2026-03

- » Integrated automated checks into the Docker pipeline, blocking 2 faulty releases.
- » Reduced escaped defects by 55% through risk-based test prioritisation.
- » Built a performance harness in Java simulating 6k concurrent users.
- » Built the defect triage process and reporting the engineering leads still use.

Skills & Tools

Git

JavaScript

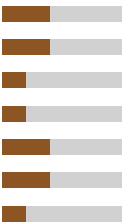

Docker

Java

FastAPI

Node.js

PostgreSQL

Projects

Commute optimiser

Pulls transit APIs and suggests departure times, built on Git.

Certifications

Certified Kubernetes Administrator (CKA) — Cloud Native Computing Foundation, 2023
