

Daniel Cox

Full-Stack Developer

Professional Summary

Full-Stack Developer with 11 years in Software Development, currently at Fenwick Digital. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in CI/CD, Go and Next.js.

Work Experience

Full-Stack Developer

Fenwick Digital | Nov '17 – Present | North Valerie (On-site)

- Introduced contract testing with Python, lifting coverage from 20% to 85% and cutting integration bugs.
- Designed and shipped Go services handling 5k requests per minute, cutting p99 latency from 780ms to 60ms.
- Replaced a third-party dependency with an in-house Angular module, saving \$3k per year in licence fees.

Mobile Engineer

BrightPath Solutions | Dec '14 – Oct '17 | Allenstad

- Built a reusable Python component library adopted by 30 product teams, removing months of duplicated work.
- Owned the customer-facing API end to end on Python, from schema design through on-call support.

Education and Training

Bachelor, Business Administration

New Mariotown University | 2014

Professional Certifications

Professional Data Engineer — Google Cloud, 2025

AWS Certified Developer - Associate — Amazon Web Services, 2022

HashiCorp Certified: Terraform Associate — HashiCorp, 2018

Honours & Awards

Peer Recognition Award, 2017

Engineering Excellence Award, 2024

Volunteering

Mentor, a community tech collective - coaching career changers through their first technical role.
