

KYLE NOLAN

Senior Full-Stack Developer

Work Experience

Northbridge IT — Senior Full-Stack Developer

Nov 2010 – Current

- Led the migration of a legacy monolith to Next.js, taking deployments from fortnightly to 8 per day.
- Set the service-level objectives for 10 services and built the dashboards the team still runs on.
- Refactored the billing module behind a feature flag, eliminating 25% of recurring production incidents.
- Mentored 8 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- Rewrote the search path in Next.js, dropping median response from 780ms to 60ms for 4M monthly users.

Backend Developer, Ridgeline Analytics

Nov 2003 – Jun 2010

- Designed and shipped Go services handling 2k requests per minute, cutting p99 latency from 320ms to 180ms.
- Partnered with product to scope and deliver 3 major releases, each behind staged rollouts.
- Replaced a third-party dependency with an in-house Go module, saving \$50k per year in licence fees.
- Owned the customer-facing API end to end on Python, from schema design through on-call support.

Platform Engineer

Clearwater Systems | Feb 2002 – Sep 2003

- Cut CI build times by 15% by parallelising the Docker pipeline and caching dependency layers.
- Built a reusable gRPC component library adopted by 6 product teams, removing months of duplicated work.
- Introduced contract testing with pytest, lifting coverage from 30% to 88% and cutting integration bugs.

Mobile Engineer

Nova Tech Group | Sep 2001 – Jan 2002

- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 20%.
- Hardened authentication flows in React after a security review, closing 6 findings before audit.
- Introduced written design docs and an RFC process, cutting rework late in delivery.

Academic Background

Bachelor, Mathematics

South David Institute of Technology | 2001

Professional Certifications
