CAREER OBJECTIVE

Senior Software Development professional, 12 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Next.js, pytest, Node.js.

PROFESSIONAL EXPERIENCE

Software Engineer, Cobalt Applications

2018–Present | Perezstad (Hybrid)

- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 45%.
- Partnered with product to scope and deliver 5 major releases, each behind staged rollouts.
- Introduced contract testing with Python, lifting coverage from 10% to 94% and cutting integration bugs.
- Led the migration of a legacy monolith to Python, taking deployments from fortnightly to 4 per day.

Meridian Software — Backend Developer

2013–2017 | Port Matthewtown

- Set the service-level objectives for 4 services and built the dashboards the team still runs on.
- Owned the customer-facing API end to end on TypeScript, from schema design through on-call support.
- Built a reusable REST APIs component library adopted by 3 product teams, removing months of duplicated work.

EDUCATION & QUALIFICATIONS

Master, Data Science

Williamsbury University | 2012

2:1 Honours

Bachelor, Computer Science

South Dennismouth National University | 2007–2010

TECHNOLOGIES

Languages: TypeScript, Python

Frameworks: Next.js, Node.js, Django, React, NumPy, Hugging Face

Cloud & DevOps: Datadog

Data: PostgreSQL, Spark

Analytics & Design: Sketch

Testing & Tooling: pytest, REST APIs

PROFESSIONAL CERTIFICATIONS

Certified Information Systems Security Professional (CISSP) — ISC2, 2017

LANGUAGE SKILLS

English – C2
