ABOUT ME

DevOps/Infrastructure graduate looking for a first role. Picked up AWS and Nginx through coursework and side projects rather than commercial work, and I'd like to learn the rest somewhere that reviews code properly.

EDUCATION AND TRAINING

High School

Debbieland High School | 2022 to 2025

TECHNOLOGIES

Cloud & DevOps: AWS, Nginx, CI/CD, Prometheus, Linux

Data: Kafka, Snowflake

EXPERIENCE

Seeking a first professional role; see projects below.

PROJECTS

Personal finance tracker

Self-hosted spend tracker built with AWS. Deliberately kept the data local rather than using a hosted service.

Conference talk

Spoke on CI/CD in production at a regional meetup, ~10 attendees.

Match-day predictor

Small model in Kafka predicting league results. Beats the naive baseline; still loses to the bookmakers.
