Career Objective

Early-career Junior Software Engineer with 1 year in Software Development. Strongest in Django; currently deepening my GraphQL experience through production work rather than tutorials.

Employment History

Junior Software Engineer, Intel

July 2025 to Now

- Introduced contract testing with the automation framework, lifting coverage from 4% to 82% and cutting integration bugs.
- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 22%.

Education

Master, Physics

Lake Samuel University | 2022 to 2023

Magna Cum Laude

Thesis: "Statistical modelling of detector noise"

Relevant coursework: Computational Physics, Electromagnetism, Thermodynamics, Quantum Mechanics

Bachelor, Information Systems

Warrenburgh Institute of Technology | 2022

Technical Skills

Languages: Go

Frameworks: Django

Testing & Tooling: GraphQL, gRPC

Selected Projects

Home energy dashboard

Collects meter readings and renders them with gRPC. Mostly an excuse to learn time-series storage properly.

gRPC utility library

Open-source helper library for gRPC, ~600 GitHub stars. Wrote the docs and handled issue triage.

Personal finance tracker

Self-hosted spend tracker built with Django. Deliberately kept the data local rather than using a hosted service.

Achievements

Employee of the Quarter, 2026

Graduated with Distinction, 2021

Community

Maintainer of a small open-source gRPC library used by a handful of teams.

Interests

Board games, Amateur photography
