About Me

Data Engineer with 2 years of commercial experience across Data Analysis. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: NumPy, dbt.

Employment History

Data Engineer, Ridgeline Analytics

02/2023 - 01/2026

- Built the reporting suite dashboards used daily by 20 stakeholders across three departments.
- Designed the experiment readouts template now used company-wide.

Education and Training

High School

Lake Emily High School | 2023

Technical Skills

- NumPy
- dbt
- Redshift
- Pandas
- DynamoDB
- React
- Node.js

Selected Projects

Home energy dashboard

Collects meter readings and renders them with Node.js. Mostly an excuse to learn time-series storage properly.

Recipe search engine

Full-text search over a scraped recipe corpus using DynamoDB; learned more about ranking than about cooking.

Redshift utility library

Open-source helper library for Redshift, ~400 GitHub stars. Wrote the docs and handled issue triage.

Volunteer Experience

Committee member, local Data Analysis meetup - organise speakers and venue.

Hobbies & Interests

Travel photography, Amateur photography
