PROFILE

Full-Stack Developer with 10 years in Software Development, currently at Silverline Data. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Python, FastAPI and Java.

WORK EXPERIENCE

Full-Stack Developer — Silverline Data

September 2016 to Now

- Led the migration of a legacy monolith to React, taking deployments from fortnightly to 6 per day.
- Partnered with product to scope and deliver 15 major releases, each behind staged rollouts.
- Cut CI build times by 60% by parallelising the Jenkins pipeline and caching dependency layers.
- Replaced a third-party dependency with an in-house React module, saving \$50k per year in licence fees.

EDUCATION AND TRAINING

Bachelor, Business Administration

Ryanbury National University | 2016

PERSONAL SKILLS

Skill	Experience
Python	7 yrs
