ABOUT ME

Platform Engineer with 4 years in Software Development, focused on Go and gRPC. Comfortable owning a feature from discovery through to production support.

EMPLOYMENT HISTORY

Blue Orbit Labs — Platform Engineer

2024–Present

- » Owned the customer-facing API end to end on Go, from schema design through on-call support.
- » Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 35%.
- » Built a reusable C# component library adopted by 12 product teams, removing months of duplicated work.
- » Led the migration of a legacy monolith to C#, taking deployments from fortnightly to 40 per day.

Junior Backend Developer

Oracle | 2021–2023

- » Set the service-level objectives for 30 services and built the dashboards the team still runs on.
- » Partnered with product to scope and deliver 10 major releases, each behind staged rollouts.
- » Designed and shipped C# services handling 12k requests per minute, cutting p99 latency from 600ms to 60ms.

ACADEMIC HISTORY

Master, Mathematics

Lake Thomasburgh University | 2020–2021

Thesis: "Convergence bounds for stochastic optimisation methods"

Bachelor, Mathematics

Lake Veronicatown Institute of Technology | 2017–2020

CORE COMPETENCIES

Go, gRPC, C#, Spring Boot, Looker, Docker, Spark

TRAINING & CERTIFICATIONS

Professional Data Engineer — Google Cloud, 2022

Tableau Desktop Specialist — Tableau, 2021

VOLUNTEERING

Committee member, local Software Development meetup - organise speakers and venue.
