TREVOR GRAY

Platform Engineer

CAREER OBJECTIVE

Early-career Platform Engineer with 1 year in DevOps/Infrastructure. Strongest in Ansible; currently deepening my CI/CD experience through production work rather than tutorials.

ACADEMIC HISTORY

High School

Costachester High School | 2022–2025

WORK EXPERIENCE

Cobalt Applications — Platform Engineer

2025–Present | Benjaminberg

- Cut container image sizes by 35%, shortening cold starts across the fleet.
- Wrote the platform team's paved-road documentation, cutting onboarding from weeks to days.

NOTABLE PROJECTS

Recipe search engine

Full-text search over a scraped recipe corpus using GitHub Actions; learned more about ranking than about cooking.

Commute optimiser

Pulls transit APIs and suggests departure times, built on Ansible.

Home energy dashboard

Collects meter readings and renders them with CI/CD. Mostly an excuse to learn time-series storage properly.
