624-796-0170x92176  
South Mollymouth

## Summary

Early-career Product Manager with 2 years in Product/Design. Strongest in Tableau; currently deepening my Git experience through production work rather than tutorials.

## Academic Background

### Master, Physics

Lake Vincentburgh Institute of Technology | 2021 to 2023  
Thesis: "Monte Carlo methods for particle transport"

### Bachelor, Physics

South Robert University | 2016 to 2020

## Tech Stack

**Languages:** TypeScript, C#

**Frameworks:** React, Django, Vue.js

**Analytics & Design:** Tableau

**Testing & Tooling:** Git, Jira

## Career History

### Product Manager, Palantir

July 2024 to Present

- Prototyped 10 concepts in TypeScript and killed two early on evidence rather than opinion.
- Built the experimentation framework the team uses to size bets before committing.

## Notable Projects

### Match-day predictor

Small model in Django predicting league results. Beats the naive baseline; still loses to the bookmakers.

### Commute optimiser

Pulls transit APIs and suggests departure times, built on Git.

### React utility library

Open-source helper library for React, ~300 GitHub stars. Wrote the docs and handled issue triage.

## Interests

Cooking, Sailing, Bouldering
