Relevant Experience

Senior Machine Learning Engineer, Intel

04/2012 - Present | North Robert

- Built the feature store that 50 downstream models now read from, ending duplicated feature logic.
- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 70%.
- Mentored 2 analysts moving into modelling work, with weekly paper reading and code review.
- Lifted recommendation click-through by 25% through feature engineering and retraining cadence in Spark.
- Established offline/online evaluation parity, catching 20 silent regressions before release.

Data Scientist, Northbridge IT

10/2006 - 02/2012 | West Kathleenburgh (Hybrid)

- Trained and deployed PyTorch models serving 50M predictions per day at under 110ms p95.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Cut inference cost by 40% through quantisation, batching and autoscaling on Grafana.
- Migrated ad-hoc notebooks into versioned Python pipelines with reproducible runs and tracked experiments.

Data Scientist, Clearwater Systems

11/2004 - 06/2006 | Martinside

- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Productionised demand forecasting models that reduced stock-outs by 45% across 4 regions.
- Developed an NLP classification system in Python reaching 96% F1, replacing a manual review queue.

Machine Learning Engineer, Vantage Point Technologies

08/2001 - 06/2004 | McCormickhaven

- Built an end-to-end training pipeline on Python, cutting retraining from days to 50 hours.
- Ran A/B tests across 12 model variants; the winning variant added an estimated \$120k in annual revenue.
- Introduced written design docs and an RFC process, cutting rework late in delivery.

Academic History

High School

New Jamesside High School | 2001

Technologies

AWS (4 years), TensorFlow (1 year), Airflow (18 years), Spark (18 years), LangChain (23 years), MLflow (18 years), Hugging Face (12 years), Pandas (3 years), SQL (15 years), Python (20 years), PyTorch (12 years), Grafana (5 years), BigQuery (9 years), Angular (4 years), Scikit-learn (23 years), Figma (22 years)

Personal Interests

Board games, Cooking, Open-source contribution
