Personal Statement

Pragmatic Quality Engineer (6 years in QA/Testing). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Jira, Docker and a lot of conversations with the people who use what we build.

Academic History

Bachelor, Biology

Boystad National University | 2016 – 2020

Relevant Experience

Ridgeline Analytics — Quality Engineer

Feb '22 – Aug '26 | Emilychester

- Drove accessibility coverage from 8% to 90% of core journeys.
- Integrated automated checks into the Docker pipeline, blocking 2 faulty releases.
- Established test data management practices later adopted by 2 teams.
- Cut end-to-end suite runtime from 5 hours to 6 minutes through parallelisation.

QA Analyst

Silverline Data | Mar '20 – Nov '21 | Lake Amandaside

- Set up cross-browser and device coverage in Python, catching defects staging had missed.
- Built a performance harness in Selenium simulating 15k concurrent users.
- Built the defect triage process and reporting the engineering leads still use.

Technical Skills

Languages: Python

Frameworks: TensorFlow

Cloud & DevOps: Docker, GitHub Actions, Datadog

Testing & Tooling: Jira, Postman, Cypress, Selenium, Confluence

Notable Projects

Conference talk

Spoke on Confluence in production at a regional meetup, ~10 attendees.

Python utility library

Open-source helper library for Python, ~900 GitHub stars. Wrote the docs and handled issue triage.

Professional Certifications

TensorFlow Developer Certificate — Google, 2021

Azure Solutions Architect Expert (AZ-305) — Microsoft, 2022

HashiCorp Certified: Terraform Associate — HashiCorp, 2023

Selected Publications

"Sequence alignment heuristics for large genomes" - co-authored conference paper, 2020.

"Population modelling under habitat fragmentation" - accepted at a peer-reviewed workshop, 2021.

Interests

Cooking, Five-a-side football, Rock climbing, Woodworking
