PROFESSIONAL SUMMARY

Software Development graduate looking for a first role. Picked up Vue.js and Django through coursework and side projects rather than commercial work, and I'd like to learn the rest somewhere that reviews code properly.

EXPERIENCE

Seeking a first professional role; see projects below.

EDUCATION & QUALIFICATIONS

Bachelor, Electrical Engineering

Cherylberg State University | 2021 to 2024

PERSONAL PROJECTS

Personal finance tracker

Self-hosted spend tracker built with Vue.js. Deliberately kept the data local rather than using a hosted service.

Recipe search engine

Full-text search over a scraped recipe corpus using Scikit-learn; learned more about ranking than about cooking.

Match-day predictor

Small model in Vue.js predicting league results. Beats the naive baseline; still loses to the bookmakers.
