CAREER HISTORY

2016-08 — Present	Junior Mobile Engineer Northbridge IT – Designed and shipped Java services handling 30k requests per minute, cutting p99 latency from 600ms to 60ms. – Cut CI build times by 55% by parallelising the Azure pipeline and caching dependency layers. – Refactored the billing module behind a feature flag, eliminating 12% of recurring production incidents.
-------------------	---

EDUCATION

Master, Computer Science

Jamiehaven State University | 2013 — 2014

Thesis: “Cache coherence under bursty workloads”

Bachelor, Electrical Engineering

Lake Peter National University | 2009 — 2012

KEY SKILLS

TypeScript	
pytest	
PostgreSQL	
Next.js	
Redis	
Java	
Vue.js	
dbt	
Azure	
Snowflake	
Kafka
