ABOUT ME

Data Analysis graduate looking for a first role. Picked up BigQuery and NumPy through coursework and side projects rather than commercial work, and I'd like to learn the rest somewhere that reviews code properly.

EDUCATION & QUALIFICATIONS

Master, Software Engineering

Lake Michellfurt University | 2025

Thesis: "Contract testing between independently deployed services"

Bachelor, Software Engineering

New Johnton University | 2020 to 2024

TECHNICAL PROFICIENCIES

- BigQuery
- NumPy
- Python
- Snowflake
- Redis

EXPERIENCE

Seeking a first professional role; see projects below.

PERSONAL PROJECTS

Match-day predictor

Small model in Snowflake predicting league results. Beats the naive baseline; still loses to the bookmakers.

Home energy dashboard

Collects meter readings and renders them with Snowflake. Mostly an excuse to learn time-series storage properly.

Personal finance tracker

Self-hosted spend tracker built with Redis. Deliberately kept the data local rather than using a hosted service.

AWARDS

Peer Recognition Award, 2022

Engineering Excellence Award, 2023
