ABOUT ME

Backend Developer with 1 year of commercial experience across Software Development. I learn fast, ask a lot of questions, and care about leaving code clearer than I found it. Core tools: CI/CD, pytest.

RELEVANT EXPERIENCE

2025–Present	Backend Developer Northbridge IT – Hardened authentication flows in Angular after a security review, closing 4 findings before audit. – Owned the customer-facing API end to end on Angular, from schema design through on-call support. – Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 30%.
