

Leah Greene

DevOps Engineer

Personal Statement

Pragmatic DevOps Engineer (4 years in DevOps/Infrastructure). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means AWS, Nginx and a lot of conversations with the people who use what we build.

Experience

DevOps Engineer, Summit Digital

2024-11 — Present | Stuartport

- » Built observability on Datadog so teams could self-serve dashboards instead of filing tickets.
- » Reduced incident MTTR from 5 hours to under 60 minutes with better alert routing and runbooks.
- » Improved cluster utilisation by 45% through right-sizing and Nginx autoscaling policies.

Cloud Engineer, BrightPath Solutions

2022-04 — 2024-11 | Ballardberg

- » Led the Kubernetes upgrade across 5 clusters with zero customer-visible downtime.
- » Cut container image sizes by 55%, shortening cold starts across the fleet.

Academic Background

High School

North Linda High School | 2018 — 2021

Selected Projects

Match-day predictor

Small model in PostgreSQL predicting league results. Beats the naive baseline; still loses to the bookmakers.

PostgreSQL utility library

Open-source helper library for PostgreSQL, ~600 GitHub stars. Wrote the docs and handled issue triage.

Honours & Awards

Graduated with Distinction, 2021

Volunteering

STEM ambassador running school workshops twice a term.
