

Robert Gutierrez

Career History

LinkedIn — Machine Learning Engineer

September 2022 to February 2026 | West Andrew

- Trained and deployed PyTorch models serving 6M predictions per day at under 80ms p95.
- Cut inference cost by 15% through quantisation, batching and autoscaling on Docker.
- Built the feature store that 12 downstream models now read from, ending duplicated feature logic.
- Productionised demand forecasting models that reduced stock-outs by 25% across 30 regions.

AI Researcher, Clearwater Systems

June 2021 to May 2022 | New Andrewville

- Lifted recommendation click-through by 70% through feature engineering and retraining cadence in TensorFlow.
- Developed an NLP classification system in Scikit-learn reaching 90% F1, replacing a manual review queue.
- Built an end-to-end training pipeline on MLflow, cutting retraining from days to 8 hours.

Qualifications

Bachelor, Physics

East Andrewmouth University | 2018 to 2021

Core Competencies

Scikit-learn — Working knowledge

Docker — Working knowledge

TensorFlow — Intermediate

MLflow — Intermediate

Kafka — Intermediate

PyTorch — Intermediate

Confluence — Intermediate

GCP — Intermediate

Selenium — Intermediate

Open Source

Home energy dashboard

Collects meter readings and renders them with GCP. Mostly an excuse to learn time-series storage properly.

Match-day predictor

Small model in Docker predicting league results. Beats the naive baseline; still loses to the bookmakers.

Licences & Certifications

Databricks Certified Data Engineer Associate — Databricks, 2024

Professional Scrum Master I (PSM I) — Scrum.org, 2016

TensorFlow Developer Certificate — Google, 2020

Language Skills

English — Native

Arabic — B2

Spanish — C1
