

Pamela Rodriguez

Platform Engineer

Professional Profile

Platform Engineer with 10 years in Software Development, currently at Nova Tech Group. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in pytest, PostgreSQL and Angular.

Work Experience

Platform Engineer

Nova Tech Group | Jul '16 – Present | South Andrea

- » Replaced a third-party dependency with an in-house Angular module, saving \$12k per year in licence fees.
- » Refactored the billing module behind a feature flag, eliminating 35% of recurring production incidents.
- » Mentored 20 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.

Academic Background

Bachelor, Economics

New Sierrastad State University | 2013 – 2016

GPA 3.8/4.0

Selected Projects

Match-day predictor

Small model in REST APIs predicting league results. Beats the naive baseline; still loses to the bookmakers.

Home energy dashboard

Collects meter readings and renders them with MySQL. Mostly an excuse to learn time-series storage properly.

Achievements

Employee of the Quarter, 2024

Community

Committee member, local Software Development meetup - organise speakers and venue.
