About Me

Senior QA/Testing professional, 8 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Python, Java, JavaScript.

Work Experience

Cobalt Applications — QA Engineer

2020–Present | New Hectorfort (On-site)

- Reduced escaped defects by 12% through risk-based test prioritisation.
- Established test data management practices later adopted by 40 teams.
- Built a performance harness in Cypress simulating 15k concurrent users.
- Automated 20 regression suites with Cypress, cutting the manual test cycle by 15%.

Test Automation Engineer, Vantage Point Technologies

2018–2020 | Lake Margaretport (Hybrid - 2 days on-site)

- Drove accessibility coverage from 30% to 82% of core journeys.
- Wrote the team's testing strategy, separating unit, contract and end-to-end responsibilities.
- Set up cross-browser and device coverage in Python, catching defects staging had missed.

Education

PhD, Information Systems

Lake Morgan Institute of Technology | 2015–2018

Bachelor, Economics

South Dorothybury University | 2014

Core Competencies

- Python
- Java
- JavaScript
- Cypress
- Playwright
- TypeScript
- Linux
- Elasticsearch
- Prometheus

Selected Projects

Personal finance tracker

Self-hosted spend tracker built with Java. Deliberately kept the data local rather than using a hosted service.

Elasticsearch utility library

Open-source helper library for Elasticsearch, ~100 GitHub stars. Wrote the docs and handled issue triage.

Certifications

AWS Certified Developer - Associate — Amazon Web Services, 2026

Tableau Desktop Specialist — Tableau, 2017

Selected Publications

"Adoption barriers for self-service analytics" - accepted at a peer-reviewed workshop, 2019.

Achievements

Engineering Excellence Award, 2022

Employee of the Quarter, 2021

Outside of Work

Woodworking, Urban sketching, Home automation, Board games
