About Me

Backend Developer with 16 years in Software Development, currently at Blue Orbit Labs. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in JavaScript, Next.js and Spring Boot.

Professional Experience

Blue Orbit Labs — Backend Developer

08/2013 - Present

- » Set the service-level objectives for 30 services and built the dashboards the team still runs on.
- » Refactored the billing module behind a feature flag, eliminating 35% of recurring production incidents.
- » Introduced contract testing with pytest, lifting coverage from 30% to 92% and cutting integration bugs.
- » Partnered with product to scope and deliver 20 major releases, each behind staged rollouts.

Software Engineer, Meridian Software

06/2012 - 06/2013

- » Built a reusable Node.js component library adopted by 12 product teams, removing months of duplicated work.
- » Mentored 50 junior engineers, ran weekly design reviews, and authored the team's onboarding guide.
- » Hardened authentication flows in Ruby after a security review, closing 30 findings before audit.

Shopify — Junior Platform Engineer

10/2009 - 03/2012

- » Replaced a third-party dependency with an in-house Spring Boot module, saving \$4k per year in licence fees.
- » Rewrote the search path in JavaScript, dropping median response from 450ms to 180ms for 20M monthly users.

Education

Bachelor, Economics

Newmanmouth State University | 2004 - 2008

Core Competencies

JavaScript, Next.js, Spring Boot, TypeScript, Node.js, Angular, pytest, C#, Docker, PostgreSQL, CI/CD, Python, Django, Postman, Ruby, Playwright

Certificates

Azure Fundamentals (AZ-900) — Microsoft, 2020

Language Skills

English – Bilingual
