Career Objective

Early-career Site Reliability Engineer with 2 years in DevOps/Infrastructure. Strongest in Ansible; currently deepening my GCP experience through production work rather than tutorials.

Academic History

High School

Sandrastad High School | 2019–2022

Technical Proficiencies

Ansible (1 year), GCP (2 years), Jenkins (2 years), Linux (2 years), Terraform (1 year), Sketch (3 years), Databricks (2 years)

Professional Experience

Clearwater Systems — Site Reliability Engineer

2024–Present | North Matthewshire (Hybrid)

- Built CI/CD pipelines with Terraform, bringing mean time to deploy under 10 minutes.
- Led the Kubernetes upgrade across 12 clusters with zero customer-visible downtime.
- Migrated 4 services to Linux, cutting monthly infrastructure spend by 45%.
- Cut container image sizes by 35%, shortening cold starts across the fleet.

Notable Projects

Ansible utility library

Open-source helper library for Ansible, ~100 GitHub stars. Wrote the docs and handled issue triage.

Match-day predictor

Small model in Sketch predicting league results. Beats the naive baseline; still loses to the bookmakers.

Personal finance tracker

Self-hosted spend tracker built with GCP. Deliberately kept the data local rather than using a hosted service.

Language Skills

English – Fluent

Spanish – Professional working proficiency

Mandarin – Professional working proficiency

Personal Interests

Competitive pub quizzes, Home automation
