

Michael Parker

MLOps Engineer

Profile

20 years in Data/AI/ML, most of it spent on systems other teams depend on. Comfortable leading technical decisions, pushing back on scope when it matters, and carrying a pager for what I build. Primary tools: PyTorch and Docker.

Work Experience

MLOps Engineer, Ironwood Consulting

2011–Present

- Ran A/B tests across 40 model variants; the winning variant added an estimated \$400k in annual revenue.
- Developed an NLP classification system in TensorFlow reaching 90% F1, replacing a manual review queue.
- Wrote the team's model documentation and review standard, now required before any production launch.
- Built an end-to-end training pipeline on Pandas, cutting retraining from days to 20 hours.
- Mentored 3 analysts moving into modelling work, with weekly paper reading and code review.

Machine Learning Engineer

Amber Creek Software | 2008–2010

- Productionised demand forecasting models that reduced stock-outs by 60% across 40 regions.
- Translated ambiguous business questions into a modelling roadmap with product and finance stakeholders.
- Cut inference cost by 40% through quantisation, batching and autoscaling on Docker.
- Trained and deployed MLflow models serving 4M predictions per day at under 40ms p95.

AI Researcher

Blue Orbit Labs | 2007–2008

- Established offline/online evaluation parity, catching 5 silent regressions before release.
- Migrated ad-hoc notebooks into versioned Pandas pipelines with reproducible runs and tracked experiments.
- Built the feature store that 5 downstream models now read from, ending duplicated feature logic.

Amber Creek Software — Junior AI Researcher

2006–2007

- Reduced label noise by redesigning the annotation guidelines, improving validation accuracy by 18%.
- Lifted recommendation click-through by 45% through feature engineering and retraining cadence in Hugging Face.
- Managed stakeholder communication during a major incident, including the post-mortem.

Applied Scientist

Ironwood Consulting | 2005–2005

Skills

Skill	Experience
PyTorch	11 yrs
Docker	19 yrs
Python	3 yrs
Kafka	1 year
LangChain	10 yrs
Airflow	13 yrs
AWS	16 yrs
Hugging Face	17 yrs
TensorFlow	9 yrs
Pandas	4 yrs
MLflow	10 yrs
Git	19 yrs
Rust	14 yrs
Playwright	10 yrs
MySQL	13 yrs
Bash	18 yrs

Language Skills

English – Native

- Led a team of 4 through a full replatforming with no missed delivery dates.
- Represented the team in cross-functional planning with product, design and support.
- Interviewed and onboarded 6 new hires, shaping the hiring bar for the team.

Education

High School

Watsonport High School | 2001–2004
