Platform Engineer

## Profile

Pragmatic Platform Engineer (4 years in Software Development). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Spring Boot, REST APIs and a lot of conversations with the people who use what we build.

## Professional Experience

### Ironwood Consulting — Platform Engineer

Mar 2025 – Current | Mooreburgh

- Hardened authentication flows in React after a security review, closing 30 findings before audit.
- Designed and shipped C# services handling 30k requests per minute, cutting p99 latency from 600ms to 60ms.
- Set the service-level objectives for 50 services and built the dashboards the team still runs on.

### Software Engineer, Clearwater Systems

Mar 2022 – Jan 2025 | Robertsside

- Refactored the billing module behind a feature flag, eliminating 70% of recurring production incidents.
- Owned the customer-facing API end to end on Go, from schema design through on-call support.

## Education and Training

### High School

Robertsfurt High School | 2018 – 2021

## Awards

Engineering Excellence Award, 2021

## Volunteering

Mentor, a community tech collective - coaching career changers through their first technical role.
