

# Bethany Barnes

nelsonsuzanne@example.net | +1-410-579-8334 | Lake Jennifer | linkedin.com/in/bethany-barnes | github.com/bethanydev

## Professional Profile

Senior Product/Design professional, 28 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Jira, Figma, Confluence.

## Work Experience

|                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| February 2006 to Present      | <b>Senior Technical Product Manager</b><br>Vantage Point Technologies <ul style="list-style-type: none"><li>Facilitated usability testing that surfaced 50 critical friction points before launch.</li><li>Introduced accessibility standards to the design process, taking 8 flows to WCAG AA.</li><li>Partnered with data to define activation and retention definitions the whole company now uses.</li><li>Redesigned onboarding in Figma, lifting activation from 4% to 92%.</li><li>Reduced support contacts by 15% by reworking the checkout and error states.</li></ul> |
| April 2000 to September 2005  | <b>UX Designer</b><br>Amber Creek Software <ul style="list-style-type: none"><li>Negotiated scope with engineering and legal to ship a compliance deadline on time.</li><li>Ran discovery interviews with 50 customers, reshaping the following year's roadmap.</li><li>Shipped a design system in Sketch adopted across 10 product surfaces.</li><li>Built the experimentation framework the team uses to size bets before committing.</li></ul>                                                                                                                               |
| January 1999 to November 1999 | <b>Product Designer</b><br>Adobe <ul style="list-style-type: none"><li>Ran quarterly roadmap reviews with executive stakeholders and published the trade-offs openly.</li><li>Defined north-star metrics and instrumented them across 12 delivery squads.</li><li>Prioritised a backlog for 5 engineers, delivering 6 releases per quarter.</li></ul>                                                                                                                                                                                                                           |
| November 1997 to January 1999 | <b>Junior Technical Product Manager</b><br>Blue Orbit Labs <ul style="list-style-type: none"><li>Prototyped 4 concepts in Figma and killed two early on evidence rather than opinion.</li><li>Wrote the PRDs and acceptance criteria for a platform migration affecting 40k users.</li><li>Took over an unowned service, documented it and brought it back under SLO.</li></ul>                                                                                                                                                                                                 |

## Academic History

### Master, Economics

South Zacharyland State University | 1995 to 1997

GPA 3.8/4.0

### Bachelor, Economics

Lake Sean National University | 1991 to 1995

## Core Competencies

Jira (26 years), Figma (16 years), Confluence (15 years), Sketch (6 years), Looker (3 years), Power BI (9 years), Excel (27 years), React (26 years), Tableau (20 years), SQL (15 years), Git (3 years), JavaScript (12 years), Spark (15 years), CI/CD (1 year), PyTorch (7 years), C# (4 years)

## Professional Certifications

Certified Information Systems Security Professional (CISSP) — ISC2, 2021

Tableau Desktop Specialist — Tableau, 2024

TensorFlow Developer Certificate — Google, 2023

## Outside of Work

Long-distance swimming, Cycling, Sailing
