Summary

Pragmatic Mobile Engineer (4 years in Software Development). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means React, JavaScript and a lot of conversations with the people who use what we build.

Career History

Mobile Engineer, Cisco

2024–2026

- Drove the team's adoption of trunk-based development, reducing merge conflicts and lead time by 70%.
- Built a reusable JavaScript component library adopted by 3 product teams, removing months of duplicated work.
- Refactored the billing module behind a feature flag, eliminating 45% of recurring production incidents.

Software Engineer, Oracle

2022–2024

- Set the service-level objectives for 30 services and built the dashboards the team still runs on.
- Designed and shipped Java services handling 5k requests per minute, cutting p99 latency from 320ms to 80ms.

Academic History

High School

South Maria High School | 2018–2021

Technical Skills

Languages: JavaScript, Go, Java

Frameworks: React

Data: Redis, Airflow

Testing & Tooling: gRPC

Side Projects

Home energy dashboard

Collects meter readings and renders them with JavaScript. Mostly an excuse to learn time-series storage properly.

Match-day predictor

Small model in React predicting league results. Beats the naive baseline; still loses to the bookmakers.

Certifications

Professional Data Engineer — Google Cloud, 2022

Professional Scrum Master I (PSM I) — Scrum.org, 2020

Certified ScrumMaster (CSM) — Scrum Alliance, 2016

Community

Volunteer instructor at a weekend coding club for 12 secondary school students.

Hobbies & Interests

Jazz guitar, Cooking, Volunteering at a local coding club
