Professional Summary

Pragmatic Junior Backend Developer (6 years in Software Development). I enjoy untangling messy systems and leaving them simpler than I found them. Day to day that means Java, gRPC and a lot of conversations with the people who use what we build.

Employment History

Junior Backend Developer

Blue Orbit Labs | 2020-07 — Present

- Led the migration of a legacy monolith to C#, taking deployments from fortnightly to 50 per day.
- Rewrote the search path in REST APIs, dropping median response from 1200ms to 60ms for 5M monthly users.
- Introduced contract testing with pytest, lifting coverage from 4% to 90% and cutting integration bugs.
- Set the service-level objectives for 3 services and built the dashboards the team still runs on.

Academic History

Master, Communications

North Terrance Institute of Technology | 2018 — 2020

Thesis: "Trust signals in digital public messaging"

Bachelor, Communications

Matthewfurt University | 2017

Technical Proficiencies
