Personal Statement

Senior Data/AI/ML professional, 9 years in. Track record of taking ambiguous problems through design, delivery and the unglamorous operational work that follows. I mentor deliberately and write things down. Core stack: Kafka, Databricks, PyTorch.

Professional Experience

Dell — MLOps Engineer

Aug 2022 – Current

- Cut inference cost by 40% through quantisation, batching and autoscaling on Docker.
- Lifted recommendation click-through by 60% through feature engineering and retraining cadence in Databricks.
- Ran A/B tests across 12 model variants; the winning variant added an estimated \$120k in annual revenue.
- Productionised demand forecasting models that reduced stock-outs by 40% across 50 regions.
- Mentored 6 analysts moving into modelling work, with weekly paper reading and code review.

Machine Learning Engineer

Cobalt Applications | Nov 2016 – Mar 2022

- Established offline/online evaluation parity, catching 30 silent regressions before release.
- Built the feature store that 4 downstream models now read from, ending duplicated feature logic.
- Trained and deployed Python models serving 6M predictions per day at under 40ms p95.
- Developed an NLP classification system in PyTorch reaching 82% F1, replacing a manual review queue.

Qualifications

Master, Economics

Dianamouth State University | 2015 – 2016

2:1 Honours

Thesis: “Labour mobility and remote work adoption”

Relevant coursework: Econometrics, Microeconomic Theory, Game Theory, Public Economics

Bachelor, Economics

Watkinshaven National University | 2011 – 2014

Skills

Kafka (7 yr exp), Databricks (1 yr exp), PyTorch (4 yr exp), SQL (2 yr exp), Scikit-learn (1 yr exp), Python (2 yr exp), Docker (1 yr exp), gRPC (8 yr exp), Looker (4 yr exp), Sketch (2 yr exp), Django (4 yr exp)

Honours & Awards

Engineering Excellence Award, 2016

Innovation Award, 2026
