About Me

Analytics Engineer with 10 years in Data Analysis, currently at Lumen Works. I work at the point where architecture meets delivery: setting technical direction, then staying close enough to the code to know whether it held. Strongest in Python, Redshift and Power BI.

Professional Experience

October 2018 to Now	Analytics Engineer Lumen Works » Automated monthly reporting with Redshift, saving 30 analyst-hours per cycle. » Defined and documented 8 core business metrics in the semantic layer, ending duplicate definitions. » Ran cohort analysis that reframed how the business measures activation.
October 2015 to August 2018	Junior Insights Analyst IBM » Migrated reporting from spreadsheets to SQL, giving one trusted source of numbers. » Consolidated 2 legacy reports into 8 maintained dashboards.
