

William Walker

wrodriguez@example.com – 885.327.7895 – linkedin.com/in/william-walker

Personal Statement

Entry-level DevOps/Infrastructure candidate. Strongest in Grafana; comfortable enough with Ansible to be useful from week one, and honest about what I still need to learn.

Education

Master, Electrical Engineering

North Emily National University | 2024 to 2026

Relevant coursework: Signal Processing, Microelectronics, Embedded Systems, Control Systems

Bachelor, Mathematics

Maddoxshire University | 2021 to 2024

Professional Experience

Seeking a first professional role; see projects below.

Core Competencies

Grafana • Ansible • REST APIs • CI/CD

Side Projects

REST APIs utility library

Open-source helper library for REST APIs, ~700 GitHub stars. Wrote the docs and handled issue triage.

Home energy dashboard

Collects meter readings and renders them with REST APIs. Mostly an excuse to learn time-series storage properly.

Recipe search engine

Full-text search over a scraped recipe corpus using Ansible; learned more about ranking than about cooking.

Training & Certifications

AWS Certified Developer - Associate — Amazon Web Services, 2021

TensorFlow Developer Certificate — Google, 2023

Research Output

"Low-power sensor networks for building monitoring" - co-authored conference paper, 2028.

"Signal denoising on embedded hardware" - accepted at a peer-reviewed workshop, 2028.
